Wall bracket (O/N D-H 99)

For clean and tidy storage of all DATEX fender, front, seat and fibreglass covers. Made of grey steel tube.

Including mounting material.

Total width: approx. 100 cm.

First-class interior protection

Our products safeguard secure protection against damages and stains – even in very sensitive car interiors.

High class materials with workshop oriented properties efficiently guarantee protection in special applications. For example antistatic polyethylene, or anti-slip undersurfaces for seat covers.

Different colours signalise special properties and help to identify the right special cover.

Most of our interior protection products are available on a handy compact roll.

Our wall bracket allows clean, tidy and central storage of a great diversity of products.

Tyre sacks made of polyethylene

excellent quality, polyethylene, white, thickness: 35 µ, 100 units per compact roll.

size XXL: 700 x 500 x 1190/1200 mm

made of strong crepe paper,
size: 390 x 500 mm,
500 units per box.

Fibreglass covers for car body repairs

Our well-proven fibreglass covers reliably prevent damages by sparks and metal drops.

Individual protection is provided for each vehicle, according to type and extend of the grinding or welding work. This is guaranteed by six different sizes and shapes. On demand we will be glad to sew individual covers for your needs.

All our fibreglass covers are made of a robust fibreglass fabric with a special protective coating. This material can withstand temperatures up to 700 °C.

Special shapes and robust suction cups or belt straps allow a secure fixation on and inside the vehicle.

Interior protection

The interior protection prevents sparks and metal drops from entering the interior. This cover is to be attached by suction cups.
Size: 2.40 x 1.50 m

(O/N D-A 20)

Tailored cover for roof and windows

This special cover protects the entire roof and the windows. Adjoining vehicles can be protected in the same way. Extra large, also for estate and fastback cars.
Size : 4.40 x 2.60 m

(O/N D-A 25-01)

Tailored rear cover

(O/N D-A 25-02)

This special cover protects the rear part of estate and fastback cars. It is to be fixed by slipping it over the back door and adjusting its width by web belts.

Size : 3.65 x 1.80 m

Special windscreen cover

(O/N D-A 22)

This special windscreen cover protects the front and the rear screen. It is to be attached by suction cups.

Size : 1.00 x 2.00 m

Special door cover

(O/N D-A 23)

The special door cover is tailored large enough to protect nearly all types of passenger car doors.

Size : 1.40 x 1.30 m

Standard covers

The standard covers lend themselves to many types of application during grinding and welding work.

Size : 2,00 x 2,00 m

(O/N D-A 21)

Size : 3,00 x 2,00 m

(O/N D-A 21 XL)
