

Protection Covers for Mercedes-Benz Workshops

protect safely - save cost - boost your image

Optimum quality was achieved in many years of co-operation with workshops and carmakers!

Each one of our covers is tailored to offer optimum protection for your customers' cars.

Only Datex develops, tests, produces, updates and improves each individual protective cover's fit, fixation, padding and optics – not only for each car brand, but, whenever necessary, even for single car models.

Our covers thus comply with the quality and CI standards of most leading manufacturers and importers.

Over the years, we have developed an efficient range of protective covers: as many as necessary and as few as possible; exactly as required by the authorised workshop.

This is the only way to guarantee optimum protection in the face of an ever increasing multitude of car models.

The use of our products assures the workshop quality and saves avoidable damages and cost.

Each protective cover has a skid-proof, scratch-free and quick fastening system, without magnets. It guarantees a secure fit on the car and avoids costly scratches which can be caused by magnets which nearly always have permanently adhering steel particles.

A two centimetres thick padding reliably avoids dents and scratches even on delicate steel plate and plastic parts, which could easily be caused through negligence or errors in handling heavy parts or tools.

The very vulnerable upper edges of the fenders are perfectly protected by an edge protection flap and the strong fastening system.

Nearly 45 years of Datex mean extensive know how in the co-operative development and first-class production of covers for the workshop's requirements.

Quality materials and careful craftsmanship guarantee the long service life of our protective covers.

Made in Datteln, Germany.

front

Brand specific front cover for MB
(O/N D-M 06-01)

For all Mercedes-Benz passenger cars except CLA, GLA, Citan, A-, B-, and G-Class.
Non-scratch attachment without magnets.

Made of strong black artificial leather. With logo imprint to support the workshop's image. Simple and strong attachment by suction cups on a web belt.

Size: about 150 x 145 cm
Weight: about 1.1 kg
Packaging: 1 piece

First-class interior protection

Our products safeguard secure protection against damages and stains – even in very sensitive car interiors.

High class materials with workshop oriented properties efficiently guarantee protection in special applications. For example antistatic polyethylene, or anti-slip undersurfaces for seat covers.

Different colours signalise special properties and help to identify the right special cover.

Most of our interior protection products are available on a handy compact roll.

Our wall bracket allows clean, tidy and central storage of a great diversity of products.

Tyre sacks made of polyethylene

excellent quality, polyethylene, white, thickness: 35 µ.

Size type 1: about 1000 x 1000 mm (O/N D-R 155)

Packaging: 100 units on a compact roll

Weight: about 6.1 kg

Size type 2: about 1200 x 1200 mm (O/N D-R 156)

Packaging: 100 units on a compact roll

Weight: about 9.0 kg

Wall bracket for three compact rolls (O/N D-R 38)

creates clarity and accessibility, for all Datex compact rolls, sturdy, wall-mounted steel tube construction, including mounting material.

Size: about 810 x 690 mm

Packaging: 1 piece, Weight: about 3.9 kg

Wall bracket for one compact roll (O/N D-R 37)

(without picture)

Size: about 810 x 210 mm

Packaging: 1 piece, Weight: about 1.8 kg

Seat cover "antistatic"

(O/N D-E 3000)

protection of electronic devices against electrostatic discharge, for all single seats, made of extra strong polyethylene with antistatic material fractions, yellow identification colour.

Size: about 840 x 1400 mm

Packaging: 250 units on a compact roll

Weight: about 9.0 kg

Seat cover "Optifit"

(O/N D-E 2000)

anti-slip bottom, made of polyethylene, colour: white/blue.

Size: about 790 x 1330 mm

Packaging: 500 units on a compact roll

Weight: about 1.0 kg

Seat cover "Optifit deluxe"

(O/N D-E 2300)

extra strong, anti-slip bottom, made of extra strong polyethylene, colour: white/silver.

Size: about 790 x 1330 mm

Packaging: 300 units on a compact roll

Weight: about 10.0 kg

Seat cover "Classic"

(O/N D-E 35)

made of polyethylene, colour: white.

Size: about 790 x 1330 mm

Packaging: 500 units on a compact roll

Weight: about 11.0 kg

Reusable steering wheel cover "antistatic"

protection of electronic devices (O/N D-L 3100)
against electrostatic discharge, elasticated, for passenger cars and lorries, made of extra strong polyethylene with antistatic material fractions, yellow identification colour.

Packaging: 20 pieces per box

Weight: about 0.7 kg

Reusable steering wheel cover

(O/N D-L 20)

elasticated, for passenger cars, made of extra strong polyethylene, colour: blue.

Packaging: 20 pieces per box

Weight: about 0.6 kg

Disposable steering wheel cover

(O/N D-L 18)

for steering wheels of passenger cars and lorries, polyethylene, very stretchable.

Packaging: 500 pieces per compact roll

Weight: about 2.9 kg

Disposable steering wheel and gear shift cover

(O/N D-L 42)

for steering wheels of passenger cars and lorries, adhesive polyethylene foil with handle, for about 250 applications.

Packaging: 1 piece

Weight: about 0.6 kg

Disposable cover for gear shift and handbrake

made of transparent polyethylene. (O/N D-SH 2020)

Size: about 145 x 160 mm

Packaging: 500 units per roll, Weight: about 2.5 kg

Floor protection with MB logo imprint (O/N D-T 26 MB)

made of strong crepe paper.

Size: about 370 x 500 mm

Packaging: 500 units per compact roll, Weight: about 7.1 kg

Floor protection without imprint (O/N D-T 26)

(without picture) made of strong crepe paper.

Size: about 370 x 500 mm

Packaging: 500 units per compact roll, Weight: about 7.1 kg

Floor protection with MB logo imprint (O/N D-T 27 MB)

made of strong crepe paper.

Size: about 390 x 500 mm

Packaging: 500 units per box, Weight: about 16.0 kg

Floor protection without imprint (O/N D-T 27)

(without picture) made of strong crepe paper.

Size: about 390 x 500 mm

Packaging: 500 units per box, Weight: about 16.0 kg

Floor protection with MB logo imprint (O/N D-T 95 MB)

made of white polyethylene.

Size: about 550 x 610 mm

Packaging: 500 units per compact roll, Weight: about 6.3 kg

Floor protection with footprint (O/N D-T 95 F)

(without picture) made of white polyethylene.

Size: about 550 x 610 mm

Packaging: 500 units per compact roll, Weight: about 6.3 kg

Floor protection without imprint (O/N D-T 95)

(without picture) made of white polyethylene.

Size: about 550 x 610 mm

Packaging: 500 units per compact roll, Weight: about 6.3 kg

Fibreglass covers for car body repairs

Our well-proven fibreglass covers reliably prevent damages by sparks and metal drops.

Tailored protection is available for every vehicle, based on the type and scope of the grinding or welding work. This is guaranteed by six different sizes and shapes. On demand we will be glad to sew individual covers for your needs.

All our fibreglass covers are made of a robust fibreglass fabric with a special protective coating. This material can withstand temperatures up to 700 °C.

Special shapes and robust suction cups or belt straps allow a secure fixation on and inside the vehicle.

Interior protection

The interior protection prevents sparks and metal drops from entering the interior. This cover is to be attached by suction cups.

(O/N D-A 20)

Size: about 2.40 x 1.50 m
Weight: about 3.6 kg
Packaging: 1 piece

Tailored cover for roof and windows

This special cover protects the entire roof and the windows. Adjoining vehicles can be protected in the same way. Extra large, also for estate and fastback cars.

(O/N D-A 25-01)

Size: about 4.40 x 2.60 m
Weight: about 6.4 kg
Packaging: 1 piece

Tailored rear cover

(O/N D-A 25-02)

This special cover protects the rear part of estate and fastback cars. It is to be fixed by slipping it over the back door and adjusting its width by web belts.

Size: about 3.65 x 1.80 m

Weight: about 4.0 kg

Packaging: 1 piece

Special windscreen cover

(O/N D-A 22)

This special windscreen cover protects the front and the rear screen. It is to be attached by suction cups.

Size: about 1.00 x 2.00 m

Weight: about 1.8 kg

Packaging: 1 piece

Special door cover

(O/N D-A 23)

The special door cover is tailored large enough to protect nearly all types of passenger car doors.

Size: about 1.40 x 1.30 m

Weight: about 2.3 kg

Packaging: 1 piece

Standard covers

The standard covers lend themselves to many types of application during grinding and welding work.

Size: about 2.00 x 2.00 m

(O/N D-A 21)

Weight: about 3.6 kg

Packaging: 1 piece

Size: about 3.00 x 2.00 m

(O/N D-A 21 XL)

Weight: about 3.6 kg

Packaging: 1 piece
